

Nutrased 600

Phytase enzyme for improved digestibility of Phytin-bound Phosphorus in poultry and swine diets.

Guaranteed Analysis

Phytase Enzyme (min).....600 FTU/gm

One Unit of Phytase activity (FTU) is defined as the quantity of enzyme which liberates 1 micro mol of inorganic phosphorus per minute from 0.0051 MOL/L of sodium phytate at Ph 5.5 and 37 degrees C.

Ingredients

Dried Aspergillus Niger Fermentation Product (Source of Phytase), Processed Plant By-Products, Calcium Carbonate and Soybean Oil

Mixing Directions

Mix in a complete poultry or swine ration according to the following schedule:

Complete Feed	gm Nutrased 600 per tonne	FTU/kg complete feed
Layers	500	300
Broiler	1,000	600
Turkeys	1,000	600
Swine	400	240

Consult your nutritionist for the appropriate ration adjustments to optimize Nutrased 600 benefits.

Caution: This product is sensitive to heat. Do Not use in feed pelleted in heat over 65 degrees C. Do not inhale dust. As with all fine particles, a dust mask should be worn to avoid inhalation when handling this product. It is recommended that the mixing areas be well ventilated. Wash hands before eating or leaving the work area.
